9. Do you have any other comments to add to your evaluation?

Please provide any additional constructive comments

- Amazing TA! He's makes the material that seems super hard, super easy through his concise breakdown of the material. He works hard and you can tell that he puts a lot of effort in helping the students. He goes above and beyond the definition of a great TA. Give this man a raise!
- He is simply amazing.
- He was great at explaining things and went out of his way to help students and make sure that we understand everything. We never could have made it through this class without him
- My only issue is that he would do a problem without explaining how he did it, or give a very general and vague explanation and not show the specifics. Otherwise, great TA! Very nice too.
- Sometimes, he will let the same student ask many questions in a row (in a foreign language) so others would not have their questions answered.

He would respond to the questions (also in a foreign language) so other people don't even know what's going on.

- Super helpful for this class! I don't think I would understand half the material without his clear and concise presentations of the material. Amazing TA.
- VERY knowledgeable, patient and responsible TA. He should be teaching this course honestly.
- Very nice and well prepared, great job!
- YuChao is the best TA that I have had in UCSD. He organized discussion sections really well and he is vey patient with all students. He always has passion in teaching, no matter how many times he has to repeat teaching the same question. He is accessible outside of his office hour as well, and he is willing to give career consultation to us. I strongly recommend him for any teaching position.
